

AWARENESS CAMPAIGN ON INCLUSIVE EDUCATION

EVENT: Awareness Campaign on Inclusive Education

DATE: 11 May 2026

CONDUCTED FOR: Classes VII B and VIII B

An interactive session and awareness campaign were conducted for students of Grades 7B and 8B to promote **peer support for diverse learners in the classroom**. The initiative aimed to foster an inclusive learning environment where every student feels valued, respected, and supported.

Through engaging discussions and interactive activities, students explored the importance of understanding individual differences, showing empathy, and offering encouragement to peers who may learn in different ways. The session highlighted how positive peer relationships can contribute to confidence, participation, and overall well-being in the classroom.

Students were encouraged to reflect on their role in creating a supportive and accepting school culture. The campaign emphasized the values of kindness, cooperation, respect, and inclusion, while helping learners recognize the strengths and unique abilities that each individual brings to the classroom.

The session was both meaningful and impactful, inspiring students to become active supporters of their peers and contributors to a more inclusive and compassionate learning community.
