

TECHNOLOGY FOR A BETTER TOMORROW

ACTIVITY: Live streaming of Technology Day Presentation

DATE: 11 May 2026

CONDUCTED FOR: Classes VI-VIII

Students of Classes VI-VIII participated in the live streaming of a special **National Technology Day** presentation, gaining valuable insights into the world of science, innovation, and technological advancement. The session provided students with an opportunity to learn about the latest developments in technology and their impact on society.

Through the presentation, students explored how technology is transforming various sectors, including education, healthcare, communication, and transportation. The programme also highlighted the importance of innovation, scientific research, and creative problem-solving in addressing real-world challenges.

The live session encouraged students to think critically about the role of technology in everyday life and inspired them to develop a curiosity for science and innovation. It also helped them appreciate the contributions of scientists, engineers, and innovators who drive technological progress.

The activity proved to be an enriching learning experience, fostering awareness, curiosity, and a deeper understanding of how technology shapes the future.
