GRAMMAR

CH-2 ADJECTIVES – KINDS

Q1. Underline the adjectives in these sentences and write their kind.

a) Which book do you want to borrow from the library?

b) Riya has three puppies at her farmhouse.

c) There is enough milk in the refrigerator for everyone.

d) These flowers smell wonderful in the morning.

e) The honest boy returned the lost wallet to its owner.

f) We completed our science project before the deadline.

g) The teacher gave us little homework today.

h) Whose bag is lying near the classroom door?

i) That painting was created by a famous artist.

j) The brilliant scientist won an international award for her discovery.

CH-3 ADJECTIVES – KINDS

Q2. Fill in the blanks with the correct degrees of the adjectives given in brackets.

a) Mount Everest is the _____ mountain in the world. (*high*)

b) The second performance was _____ than the first, but the final one was the
_____ of all. (*good*)

c) This is the _____ story I have ever read. (*interesting*)

d) An airplane is _____ than a train. (*expensive*)

e) Of all the players in the team, Aryan is the _____. (*fit*)

f) Today's weather is _____ than yesterday's. (*bad*)

g) A lion is _____ than a fox. (*strong*)

h) This puzzle is the _____ of all the puzzles in the book. (*easy*)

i) Neha's handwriting is as _____ as mine. (*neat*)

j) Among all the students in the class, Tina is the _____. (*happy*)

CH-4 FORMATION OF ADJECTIVES

Q3. Fill in the blanks with the correct adjective formed from the word given in brackets.

- a) We enjoyed a very _____ picnic at the park. (*delight*)
- b) The teacher gave us some _____ advice before the competition. (*help*)
- c) The old fort is a _____ place to visit. (*history*)
- d) Rohan is always _____ to everyone he meets. (*friend*)
- e) We should keep our classroom neat and _____. (*beauty*)
- f) It was a _____ day, so we decided to fly kites. (*wind*)
- g) My cousin looked very _____ in her new outfit for the party. (*style*)
- h) The magician gave an _____ performance that amazed everyone.
(*impress*)
- i) The road became _____ after the heavy rain. (*danger*)
- j) The children were _____ after winning the football match. (*cheer*)

.

This image shows a single sheet of white paper with horizontal blue ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

SUBJECT: ENGLISH

CLASS -V

JULY,2026

NAME: _____

DATE: _____

READING

Q1. Read the passage and answer the following questions.

Riya always looked forward to spending her weekends at her grandmother's house, especially because of the beautiful garden behind it. Though it was small in size, it was filled with colourful flowers, fresh vegetables, fragrant herbs, and cheerful birds that visited every morning. Her grandmother believed that plants, like people, needed love, care, and patience to flourish. Every day, she watered the plants, removed weeds, and enriched the soil with natural compost.

During her summer vacation, Riya decided to help in the garden. She soon realised that gardening was not as simple as it appeared. It required dedication, careful attention, and regular effort. Under her grandmother's guidance, she learned how to sow seeds, water plants wisely, and protect them from harmful insects. A few weeks later, tiny green shoots emerged from the soil, filling Riya with a deep sense of joy and accomplishment.

Soon, the family enjoyed a delicious meal prepared with freshly picked tomatoes, spinach, and coriander from the garden. As everyone appreciated the freshness of the vegetables, Riya understood that gardening offered much more than healthy food. It taught her responsibility, perseverance, and respect for nature. Inspired by the experience, she decided to create a small garden at home and encourage others to care for the environment.

A. Answer the following questions.

a) Why did Riya enjoy visiting her grandmother's house?

b) What did Riya learn while helping her grandmother in the garden?

c) Why did Riya decide to start a garden at her own home?

B. Choose the correct option.

I) What did Riya's grandmother use to keep the soil healthy?

- a) Chemical fertilisers
- b) Natural compost
- c) Sand
- d) Plastic covers

II) Which quality was NOT mentioned as something Riya learned from gardening?

- a) Responsibility
- b) Perseverance
- c) Respect for nature
- d) Greed

III) What was prepared using vegetables from the garden?

- a) A fruit salad
- b) A delicious family meal
- c) A birthday cake
- d) Vegetable soup

C. Find the following from the passage.

a) a word that means *not giving up even when something is difficult*. _____

b) a word that means *a strong feeling of happiness after achieving something*. _____

D. Gardening taught Riya responsibility, perseverance, and respect for nature. Do you think students should be encouraged to grow plants at home or in school? Give two reasons to support your answer. (Answer in 40–50 words.)

प्रश्न 6 मोबाइल फ़ोन के कम उपयोग की सीख देते हुए छोटी बहन को पत्र लिखिए ।

CH – DATA HANDLING

ASSIGNMENT NO. 1

SUBJECT: MATHEMATICS

CLASS -V ____

JULY, 2026

NAME: _____

DATE: _____

Q1) MENTAL MATHS

- a) Pie – chart is also known as _____.
- b) Data is plotted as points on a graph, which are joined together by a line called a _____.
- c) _____ represents everything with the help of pictures.

Q2) The given bar graph shows the number of fruits some friends ate in a fruit - eating competition.

- Who ate the maximum number of fruits and how many?
- How many fruits did Sita eat?
- Which of the friends ate an equal number of fruits?
- Who all ate more than 5 fruits?

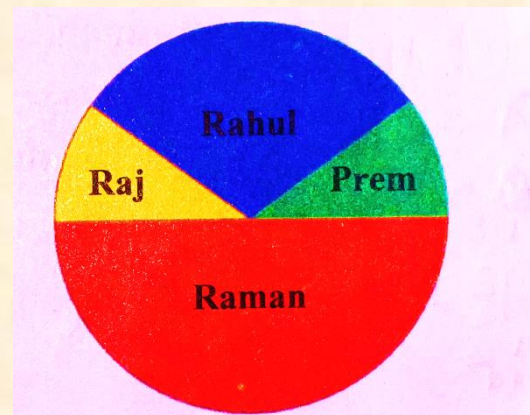

Q3) **The number of buses going from Delhi to other cities are:**

From Delhi to	Agra	Chandigarh	Jaipur	Meerut	Shimla	Jammu
Buses	16	28	20	16	12	8

Draw a bar graph for the data using a suitable scale.

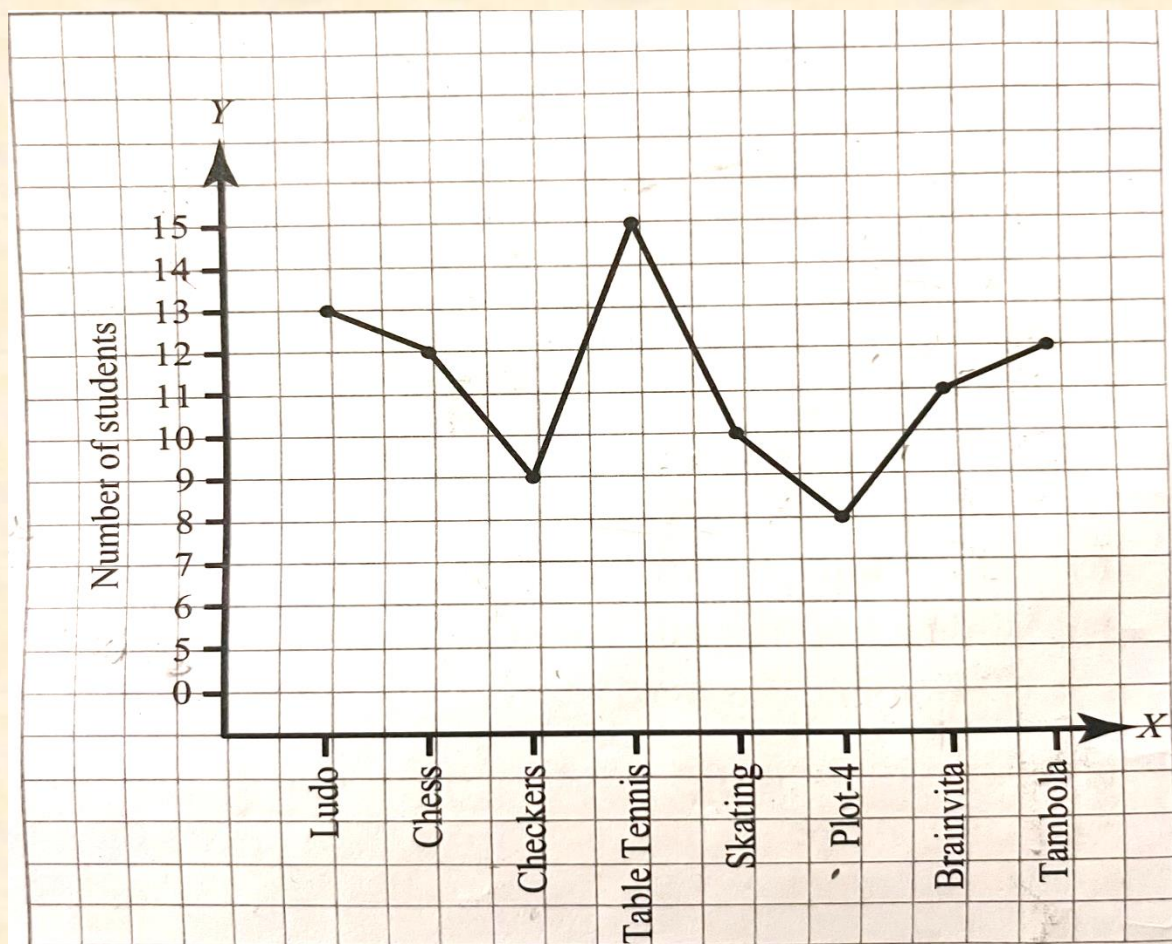

Q4) The circle graph shows the money spent on a haircut by 4 friends. Study the graph and answer the questions that follow.

- Who spend the most?
- Which two friends spent an equal amount?
- Who spent the least?

Q5) During an indoor games period, the number of children who choose various games are shown in the graph. Study the graph and answer the following questions.

- (a) How many children wanted to play Brainvita?
- (b) Which was the game chosen by maximum children?
- (c) Which games were chosen by less than 10 students?
- (d) How many children were given the choice?

ASSERTION AND REASONING BASED QUESTION

DIRECTION: In the question number 6 ,a statement of Assertion (A) is followed by a statement of Reason (R). Choose the correct option.

- a) Both Assertion and Reason are true and Reason is a correct explanation of Assertion.
- b) Both Assertion and Reason are true but Reason is not a correct explanation of Assertion.
- c) Assertion is true but Reason is false.
- d) Assertion is false but Reason is true.

Q6) Assertion (A): If a symbol  represents 5 students, then 4 such symbols represent 20 students.

Reason(R): A pictograph represents data using uniform vertical bars.

Q4) Find the HCF of 15, 20 and 25 by prime factorisation method.

Q5) Find the LCM using long division method.
18 , 27 , 9

Q6) The weather report is shown by a television channel every 3 hours. Another channel shows the report every 4 hours. How many times will the two channels show the report together in a day?

Q7) CASE STUDY BASED QUESTION

The school librarian, Mrs. Sharma, received a batch of **24 new science books** and **36 new mathematics books**. She wants to arrange these books on shelves such that each shelf has an equal number of books, and no books of different subjects are mixed on the same shelf.

- a) What is the maximum number of books Mrs. Sharma can put on each shelf?
- b) How many shelves will be needed in total to store all the books using this maximum arrangement?
- c) If 12 more science books are added, how many science shelves will be needed using the same maximum number of books per shelf ?

ASSERTION AND REASONING BASED QUESTION

DIRECTION: In the question number 8 a statement of Assertion (A) is followed by a statement of Reason (R). Choose the correct option.

- a) Both Assertion and Reason are true and Reason is a correct explanation of Assertion.
- b) Both Assertion and Reason are true but Reason is not a correct explanation of Assertion.
- c) Assertion is true but Reason is false.
- d) Assertion is false but Reason is true.

Q8) Assertion (A): The number 7 has exactly two factors.

Reason(R): Numbers that have more than two factors are called composite numbers

Ch.3 Living Safely

ASSIGNMENT NO.1

SUBJECT: EVS

CLASS-V _____

JULY 2026

NAME: _____

DATE: _____

Q1. Tick the correct option:

a) The first rule for safety is to be alert.

(i) **True** (ii) **False**

b) Keep all _____ well labelled and out of children's reach.

(i) **books** (ii) **medicines** (iii) **toys** (iv) **none of these**

c) We should always stay away from barbed wires.

(i) **True** (ii) **False**

d) Apply _____ to stop the flow of blood, in case of a cut.

(i) **Water** (ii) **ice** (iii) **bandage** (iv) **all of these**

Q2. Differentiate between good touch and bad touch.

Q3. Define first aid.

Q4. Write any two safety rules to be followed at home.

Q5. How can you treat a burn?

Q6. Read the following and answer the questions.

Animal and insect bites can be painful. Dogs, cats, snakes, bees, wasps, ants, mosquitoes and spiders may bite or sting. A bite or sting can cause pain, swelling, redness, itching or cause allergic reactions. If you are bitten or stung, you should wash the affected area with clean water and soap. Apply ice and make the person comfortable and call a doctor immediately. We should be careful and never harm stray animals.

Q1. What are the effects of animal bite or sting?

Q.2 We should never _____ stray animals.

Q7. Assertion and Reasoning Based Question:

Assertion: Heat exposure may lead to a bleeding nose.

Reason: Nose bleeding can happen when you remain out during the day.

A

A is true but R is false.

B

A is false but R is true.

C

Both A and R are true and R is the correct explanation for A.

D

Both A and R are true but R is not the correct explanation for A.

Q8. Assertion and Reasoning Based Question:

Assertion: A glass of lemonade with sugar and salt can hydrate our body in summers.

Reason: We may feel tired, giddy and get a headache is dehydrated.

A

A is true but R is false.

B

A is false but R is true.

C

Both A and R are true and R is the correct explanation for A.

D

Both A and R are true but R is not the correct explanation for A.

Q.9 Computational thinking question (Decoding).

Students to decode the safety message by replacing the numbers with letters.

1) Number Code

Code – A=1, B=2, C=3.....Z = 26

Decode the following and fill in the blanks.

- **8-5-12-13-5-20** _____
- **6-9-18-19-20-1-9-4** _____
- **1-22-15-9-4-1-3-3-9-4-5-14-19** _____

CH-4 FOOD AND HEALTH

ASSIGNMENT NO. 2

SUBJECT: EVS

CLASS-V _____

JULY,2026

NAME: _____

DATE: _____

Q1. Tick the correct option:

1. Keep your surroundings clean by spraying _____ regularly, in and around your house.

(i) insecticides (ii) Chloroquinine (iii) kerosene (iv) none of these

2. The _____ virus originated from a chimpanzee virus.

(i) Malaria (ii) AIDS (iii) Dengue (iv) none of these

3. Use of _____ helps in reducing the spread of diseases.

(i) sanitiser (ii) vaccine (iii) nutrients (iv) none of these

Q2. Write 'T' for True and 'F' for False statements.

1. Chlorine tablets can be added to tanks to make the water pure. _____

2. COVID-19 is a highly infectious disease caused by a virus. _____

3. Our body gets time to repair the wear and tear when we are awake. _____

4. Plague epidemic was caused due to the bites of rat-fleas. _____

Q3. Define immunity.

Q4. Why is water important for our body?

Q5. Why does our blood appear red? Explain briefly.

Q6. Read the following and answer the questions.

Malaria is an infectious disease, which is caused by Protozoa called Plasmodium. These germs start growing in the body of the mosquito, which takes about 7-10 days which is called the incubation period. When such mosquito bites a healthy person, it transfers some of the malaria germs into their body and this is how the disease spreads.

Q1. How is malaria caused?

Q2. Mention any one way to control the spread of malaria.

Q7. Assertion & Reasoning Based Question:

Assertion: Microorganisms cannot be seen with our naked eyes.

Reasoning: They are very tiny and can be seen only with a microscope.

A

Both A and R are true and R is the correct explanation of the assertion.

B

Both A and R are true and R is not the correct explanation of the assertion.

C

A is true but R is false.

D

A is false but R is true.

Q8. Assertion & Reasoning Based Question:

Assertion: A house should be airy and receive plenty of sunlight.

Reasoning: Fresh air and sunlight reduce the growth of germs.

A

Both A and R are true and R is the correct explanation of the assertion.

B

Both A and R are true and R is not the correct explanation of the assertion.

C

A is true but R is false.

D

A is false but R is true.

Q9. Computational Thinking Question: (Problem Solving)

Rohan ate the following foods in one day:

Apple

Milk

French fries

Salad,

Soft drink

How many healthy food items did Rohan eat?

- ☐ A. 2
- ☐ B. 3
- ☐ C. 4
- ☐ D. 5

CH-7 THE NORTHERN MOUNTAINS

ASSIGNMENT NO. 3

SUBJECT: EVS

CLASS-V _____

JULY,2026

NAME: _____

DATE: _____

Q1. Tick the correct option:

1. Which is the highest mountain range in the world?

- (i) Aravalli (ii) Himalayas (iii) Vindhyas (iv) none of these

2. The river Ganga and Yamuna originate from _____.

- (i) Lakes (ii) Glaciers (iii) Mountains (iv) none of these

3. Terrace farming is mainly done on the _____.

- (i) Desert (ii) Plains (iii) Glaciers (iv) mountain slopes

Q2. Write 'T' for True and 'F' for False statements.

1. The average height of the Himadri Range is 8000 metres above sea level. _____

2. Shivalik forests are rich source of medicinal plants. _____

3. Glaciers are moving sheet of ice. _____

4. K2 is the highest peak in China. _____

Q3. Why are the Himalayas called the 'abode of snow'?

Q4. Write a short note on weather and occupation of people in Himachal.

Q5. Write a short note on Terai region.

Q6. Read the following and answer the questions.

The Himalayas are the highest mountain range in the world. Many rivers like the Ganga, Yamuna and Brahmaputra originate from glaciers in the Himalayas. These rivers provide water throughout the year. The Himalayas also stop the cold winds from North Asia and help India receive rainfall during the monsoon.

Q1. Name two rivers that originate from the Himalayas.

Q2. How do the Himalayas help India during winter?

Q7. Assertion & Reasoning Based Question:

Assertion: The highest peak of the Himalayan range is Mt. Everest.

Reasoning: The highest peak of the Himalayan range in India is Kanchenjunga.

A

Both A and R are true and R is the correct explanation of the assertion.

B

Both A and R are true and R is not the correct explanation of the assertion.

C

A is true but R is false.

D

A is false but R is true.

Q8. Assertion & Reasoning Based Question:

Assertion: Mawsynram receives the highest rainfall in the world.

Reasoning: Mawsynram receives an average of 467.4 inches of rainfall every year.

A

Both A and R are true and R is the correct explanation of the assertion.

B

Both A and R are true and R is not the correct explanation of the assertion.

C

A is true but R is false.

D

A is false but R is true.

Q9. Computational Thinking Question: Sequence (Algorithmic Thinking)

Choose the correct order of water flow.

☐ Glacier → River → Sea

☐ Sea → Glacier → River

☐ River → Sea → Glacier

☐ River → Glacier → Sea
