

CHILD SAFETY: STUDENT SENSITIZATION ACTIVITY

Grade: Ankur to II

A child safety session was conducted for Ankur to Grade II students. The children learned that their body belongs to them. They were taught about safe and unsafe touch in a simple and friendly way. They also learned to say “No”, move away from anything that makes them feel scared or uncomfortable, and tell a trusted adult like a parent, teacher, or school counsellor. The session also reminded children to be kind, stay safe while using the internet, and always ask for help when needed. The activity helped students feel confident, safe, and happy.
