

World Nature Conservation Day Celebration

Organised by : ITL Public School

Date: 28 July, 2026

Classes : I to VIII

"The Earth is what we all have in common, and protecting it is our shared responsibility."

ITL Public School celebrated World Nature Conservation Day with great enthusiasm through a special assembly and engaging classroom activities, inspiring students to care for and protect the environment.

The celebration began with a special assembly conducted by Classes I & II, featuring speeches, a "Nature Speaks" presentation, an action rhyme, a melodious song and a Nature Pledge, encouraging everyone to adopt eco-friendly habits. Parents appreciated the confident performances of the young learners.

Students of Classes III to V participated in meaningful activities—Class III prepared seed balls, Class IV created useful items from waste materials, and Class V presented a Nature Conservation Pledge and Action Plan. These activities promoted environmental awareness, sustainability, and responsible citizenship.

The young ITLeens of Classes VI - VIII celebrated through a series of experiential learning activities aimed at fostering environmental awareness and sustainable practices.

Class VI students showcased creativity through EcoMark, designing bookmarks featuring plant illustrations and conservation messages. The students of Class VII participated in My Mini Green Garden, planting microgreens in earthen pots to promote sustainable living and environmental responsibility whereas the young ITLeens of Class VIII conducted Compost Tea Preparation and pH Analysis, gaining practical insights into organic fertilisers, soil health, and eco-friendly agricultural practices.

The activities provided valuable hands-on learning experiences, nurturing scientific temperament, creativity, and a strong sense of environmental stewardship. The celebration successfully inspired students to embrace sustainable habits and contribute towards the conservation of nature.

The celebration concluded with a collective commitment to protect nature and work towards a greener, healthier future.

Together, let's nurture nature for a greener tomorrow!
