FROM THE PRINCIPAL'S DESK

Education is not merely about academic achievement; it is about shaping individuals who are thoughtful, resilient and prepared to make a positive difference in the world.

At DPS Greater Noida, we envision learning as an exciting journey of discovery, creativity, and personal growth. Our aim is to provide an environment where students are encouraged to question, explore and develop the confidence to pursue their aspirations.

We believe that a nurturing and inclusive school environment plays a vital role in a child's overall development.

Through a rich blend of academics, sports, arts, leadership opportunities and community engagement, we strive to cultivate not only successful learners, but also responsible and compassionate human beings.

The accomplishments of our students across diverse domains are a reflection of their dedication, the unwavering commitment of our teachers and the constant support of the School Management. Together, we work to ensure that learning extends beyond classrooms and equips students with the skills, values and mindset needed to thrive in an ever-changing global landscape.

I would also like to acknowledge the invaluable contribution of our parents, whose trust and partnership strengthen our efforts every day. The combined influence of home and school creates the foundation upon which children build their character, confidence and future success. Together, let's empower our children to embrace challenges, seize opportunities and create a brighter tomorrow.

With warm regards
Seema Roy

LAYING A STRONG FOUNDATION FOR FUTURE

Our Early Years Center is a separate segment dedicated to Classes Nursery, LKG, UKG, I & II, surrounded by verdant greens that provide a naturally perfect fuel for the innately inquisitive mind of the little child. Added to this, the spacious and well-ventilated classrooms and highly qualified teachers and caretakers lend an ideal eco-system for children to glide seamlessly through their learning processes.

The five centers within the programme constitute the guiding module for the students:

- ❖ Focus Center
- ❖ Literacy
- ❖ Numeracy
- ❖ Understanding the World
- ❖ Expressive Art & Design

As a team of responsible educators, we are aware that kindergarten is the first experience of the children in a structured environment where leaving the safety and comfort of their homes, the young children embark on a new journey of learning. Providing them a holistic educational experience that is totally learner-centric, interactive and experiential is the prime objective of all our endeavours.

GETTING CHILDREN FUTURE READY WITH THE CAMBRIDGE INTERNATIONAL PROGRAMME

keeping pace with the evolving global trends

In the session 2023-24, we proudly introduced the Cambridge curriculum, laying the bricks for our students' academic growth. Building on this success, the project was taken forward in the session 25-26 with the introduction of Cambridge Stage 1 Primary and this year in the session 26-27, the project is extended to Cambridge stage 2 Primary. This new stage is designed to further enhance our students' learning journey, equipping them with essential skills and love for learning from an early age.

The DPS–Cambridge International programme promises a holistic and balanced curriculum that engages classroom resources with an advanced assessment approach to measure learner's progress. Teaching- learning is play-based and child-centred, and focuses on building learners' skills and confidence in key developmental areas.

Into the fourth year of fruitful collaboration with Cambridge English, we look forward to nurturing the new generation learners through this esteemed educational programme.
