READING

Q1. Read the passage and answer the following questions.

Aniket had always been fascinated by the old library near his school. It was a peaceful and quiet place, surrounded by tall trees and flowers of different colours. The librarian, Mrs Sharma, was a gentle woman who believed that books could open doors to wonderful new worlds. She encouraged students to read regularly and make useful notes from what they learned.

One afternoon, Aniket volunteered to help organise the library. At first, the task seemed difficult because hundreds of books had to be arranged according to their subjects. However, Aniket worked patiently and carefully. He discovered several books about famous explorers, remarkable inventions, and journeys full of adventure. Each book made him more curious about the world.

While arranging the shelves, Aniket noticed that some old books were damaged. He suggested creating a small repair corner where students could mend them instead of throwing them away. Mrs Sharma appreciated his brilliant idea. She explained that taking care of the books was also a way of respecting knowledge.

By the end of the week, the library looked cleaner and more organised. Aniket felt proud of his work. He realised that a library was not merely a place filled with books; it was a place where curiosity, imagination, and knowledge could grow.
