Day / Date	:	15 th July 2026
Organised by	:	Department of Commerce
Attended By	:	Students of Class VI - XII
Facilitators	:	Coordinator and Class teachers

Skills ignite confidence, confidence inspires action, and action changes the world !!

At ITL Public School, we believe that when we empower young minds with a balanced set of future-ready capabilities, we are fostering a generation of innovators, critical thinkers, and problem-solvers ready to build a better tomorrow. On this World Youth Skills Day, we proudly align with this year's official UN theme: "Skills for a shared future."

Today highlights the vital importance of equipping young people with the essential tools needed for future employment, decent work, and entrepreneurship. By building a diverse skillset—combining technical proficiency with vital human and social skills like empathy, teamwork, and critical thinking—our youth hold the ultimate potential to drive economic growth and the UN's Sustainable Development Goals forward. Let's motivate our youth to acquire essential digital skills , green skills , human & social skills , and global civic engagement to delve into a world of limitless possibilities.
