

Food Processing Workshop

Session 2025–26

Date: 13 July 2026

Time: 9:30 a.m.

Venue: Home Science Lab

Facilitator: Ms. Avantika Bhatia

Class: IX

A **Food Processing Workshop** was conducted for the students of **Class IX** by **Ms. Avantika Bhatia** as part of the **Kaushal Vikas curriculum**. The workshop aimed to introduce students to the basic concepts of food processing and provide them with meaningful hands-on learning experiences.

An introduction to **Food Processing** was given, covering the concept of processed food, its importance, and its practical applications in everyday life.

The workshop further included hands-on demonstrations and preparation of **Mango Chutney and Amla-based processed food**. The students actively participated in the activities and enthusiastically learned about the preparation, processing and preservation of food products.

The workshop provided students with an opportunity to connect theoretical knowledge with practical skills. It was an engaging and enriching learning experience that enhanced their understanding of **food processing, food preservation and vocational skills**.
