

LITTLE ARCHAEOLOGISTS IN ACTION

ACTIVITY: Exploring the Indus Valley Civilization

DATE: 3 August 2026

CONDUCTED BY: Class 6C

Students of **Class VI-C** stepped into the roles of little archaeologists and historians as they explored the **Indus Valley Civilization** through an engaging art-integrated activity. They created replicas of **Harappan toys and artefacts**, bringing the ancient civilisation to life through creativity and hands-on learning.

The activity encouraged students to learn by doing, while deepening their understanding of Harappan culture, craftsmanship, and daily life. It made the study of history interactive, creative, and enjoyable.
