

## **BUILDING IDEAS WITH TWEAK KITS**

**ACTIVITY: Hands-On Learning with Tweak Kits**

**DATE: 11 August 2026**

**CONDUCTED BY: Class 5A**

Students of **Class 5A** enthusiastically engaged with **Tweak Kits**, exploring concepts through hands-on experimentation and creative problem-solving. The activity encouraged students to build, test, observe, and learn through practical experiences.

The session fostered **curiosity, innovation, teamwork, and scientific thinking**, making learning interactive, engaging, and enjoyable.
