Name of Workshop: Design Thinking & Problem Solving

Resource Person: Ms. Nilanjana Thaosen

Date: 21st Aug'2026

Duration: 10:15 a.m. – 11:15 a.m.

Venue: School Auditorium

Content:

An enriching workshop on “Design Thinking and Problem Solving” for students of Grade IX was conducted by Ms. Nilanjana Thaosen, Associate Director – Outreach & Admissions, ATLAS SkillTech University. The session introduced learners to a structured, creative approach for identifying challenges, understanding user needs, generating ideas, and developing practical solutions. Through relevant examples and interactive discussions, she encouraged students to question assumptions, explore multiple perspectives, and approach problems with empathy and innovation. The workshop highlighted the importance of observation, collaboration, experimentation, and adaptability in addressing real-world situations.
