1 Read the passage and answer the following questions:

Sleep is an important part of a healthy life. Children need enough sleep to feel fresh and active during the day. A good night's sleep helps the body rest and gives the brain time to recover. It also helps children pay attention in class, remember what they learn, and stay in a good mood. Today, many children spend a lot of time watching television, playing video games, or using phones before bedtime. The bright light from screens can make it harder to fall asleep. Children should try to follow a regular bedtime and keep electronic devices away when it is time to sleep. Reading a book, listening to soft music, or doing some quiet activity can help the body relax. Getting enough sleep every night can make children healthier, happier, and ready to learn. A good sleep routine is a simple habit that can make a big difference in our daily lives.
