

SECTION – A	
1	Read the passage and answer the following questions: Sleep is an important part of a healthy life. Children need enough sleep to feel fresh and active during the day. A good night's sleep helps the body rest and gives the brain time to recover. It also helps children pay attention in class, remember what they learn, and stay in a good mood. Today, many children spend a lot of time watching television, playing video games, or using phones before bedtime. The bright light from screens can make it harder to fall asleep. Children should try to follow a regular bedtime and keep electronic devices away when it is time to sleep. Reading a book, listening to soft music, or doing some quiet activity can help the body relax. Getting enough sleep every night can make children healthier, happier, and ready to learn. A good sleep routine is a simple habit that can make a big difference in our daily lives. a) Why is sleep important for children? Children need enough sleep to feel fresh and active during the day. b) A good night's sleep helps the brain to : i) play games ii) recover iii) watch television iv) use phones c) How can using screens before bedtime affect sleep?
