

In-Person Academic Support Classes 2026

UT Ladakh & CBSE Collaboration

As part of the **UT Ladakh–CBSE collaborative initiative**, Ms. Shikha Gautam (PGT Mathematics) & Ms Nidhika Malik (TGT Mathematics), served as a **CBSE Resource Faculty** for Class XII & Class X Mathematics at Government Higher Secondary School (GHSS) Diskit and GHSS Turtuk, Nubra Valley respectively, from **14 to 19 September 2026**.

The six-day academic intervention provided an enriching opportunity to interact closely with the Class XII & X students and understand their learning needs. The sessions were conducted through an interactive and student-centred approach, encouraging students to participate actively, solve problems independently and develop greater confidence in Mathematics. It was particularly gratifying to see students gradually become more comfortable in attempting questions, presenting their solutions and seeking clarification of their doubts.

The interaction with the local faculty was equally enriching. There was a meaningful exchange of teaching practices, resources and ideas, with a shared focus on supporting students in their Board Examination preparation.

The students responded with enthusiasm and warmth throughout the programme. Their active participation, willingness to learn and growing confidence made the experience especially rewarding. The feedback received from the students and teachers was encouraging, with appreciation for the interactive sessions, individual attention and academic guidance provided during the intervention.

The visit was also a memorable cultural experience, enriched by the warm hospitality and thoughtful coordination of Principals of both the schools. The opportunity to experience the unique landscape and culture of Nubra Valley made the academic engagement even more meaningful.

Overall, the programme was a **valuable and fulfilling professional experience**, providing an opportunity to contribute to students' learning while also learning from the dedicated educators and vibrant school community of Ladakh.
