

CLASS ACTIVITY REPORT

SESSION: 2026–2027

Name of the Activity	:	AI Explorers – Artificial Intelligence Workshop
Day & Date	:	Wednesday, 30 September 2026
Class	:	VII
Resource Person	:	Ms. Soni Batra

Objectives:

- to introduce students to the concept and everyday applications of Artificial Intelligence.
- to encourage curiosity, questioning, creativity and responsible use of AI.
- to help learners understand AI through simple examples and interactive discussion.
- to develop confidence and initiative by encouraging students to participate and share their ideas.

“Learn • Create • Question • Experiment”

A Glimpse of the Workshop

The Artificial Intelligence Workshop, “AI Explorers”, was conducted as an engaging and interactive learning experience for the students of MBS International School. The session was facilitated by Ms. Soni Batra, who introduced the learners to Artificial Intelligence through simple explanations, relatable examples and interactive discussion.

The workshop focused on helping students understand what AI is, how it is used in everyday life, and how AI can support learning and creativity. Students were encouraged to observe, think, ask questions and connect the concepts with examples from their own surroundings.

A key feature of the workshop was the active participation of the children. Students took initiative, responded enthusiastically to questions, shared their ideas and participated in the activities with curiosity and confidence. The interactive approach helped create an environment where learners felt comfortable asking questions and expressing their thoughts.

The session also highlighted the importance of using Artificial Intelligence thoughtfully and responsibly. Students were encouraged to explore AI with curiosity while developing critical thinking and an understanding of responsible digital behaviour.

Overall, the workshop provided an enriching opportunity for students to learn, interact and explore the possibilities of Artificial Intelligence in a fun and meaningful way.

Glimpses of the AI Workshop
