FROM DIRECTOR PRINCIPAL'S DESK

Education transcends the mere acquisition of knowledge; it is the nurturing of values, self-belief, and compassion that molds responsible global citizens."

Dear Readers

The past few months have been a dynamic and enriching phase of learning for our students, marked by a thoughtful balance of academics, skill-building, and joyful engagement. Through well-structured lessons, hands-on activities, and experiential learning opportunities, students have strengthened core concepts while developing essential skills such as critical thinking, creativity, communication, and collaboration.Competitions, assemblies, and classroom activities provided platforms for children to express themselves with confidence, explore their talents, and learn the values of participation and perseverance. Celebrations and special events further enriched the learning journey by fostering cultural awareness, social bonding, and a sense of belonging. I sincerely appreciate the commitment of our teachers and the support of parents in nurturing a positive and inspiring learning environment where every child continues to grow with joy, curiosity, and confidence.

Warm regards
Ritu Mehta
Director Principal
