Inter-School Biotechnology Meet 13 Oct 2026

Sadhu Vaswani International School for Girls hosted the Inter-School Biotechnology Meet on 13 October,2026 bringing together young innovators to explore contemporary developments in biotechnology.

The event featured presentations on Isolation and Analysis of Nucleic Acid, Isolation of Protein and CRISPR: Editing the Blueprint of Life. The officiating Principal
Ms. Anu Bhatia, in her welcome address, encouraged students to nurture curiosity and motivated the participants.

The distinguished judges, Dr. Senjuti Sinharoy and Dr. Amar Pal Singh, senior scientists at BRIC-NIPGR (Biotechnology Research and Innovation Council – National Institute of Plant Genome Research), appreciated the students' scientific understanding and presentations. Dr. Sinharoy emphasised applying scientific concepts for the betterment of the future and asking the right questions. Dr. Singh encouraged students to persevere in their pursuit of answers and appreciated the efforts and research work done by the students at school level.

Several schools competed in the Interschool Biotechnology Meet and our school secured First Position, followed by Cambridge School, Srinivaspuri, and DPS, Vasant Kunj. DPS, R.K. Puram, received a Special Mention.

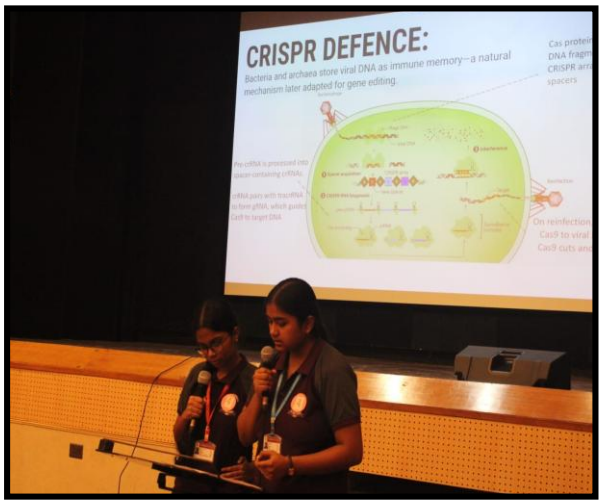

The Meet concluded with a vote of thanks by the Headmistress, Ms Deepti Sharma, inspiring everyone to pursue further learning and intellectual growth. The event provided a platform for students to engage with contemporary scientific ideas and learn from experts.
