Name of the Activity : Gratitude Card Making Activity
Day & Date : Wednesday, 28 October 2026
Class : IX
Teacher In charge : Ms Parul Trivedi
Activity In charge : Ms. Parul Trivedi

A Glimpse of the Event

Objectives:

The primary objective of card making is to design and craft a handmade greeting card to express sincere emotions, share personal messages, and strengthen human connections.

"Gratitude makes sense of our past, brings peace for today, and creates a vision for tomorrow.""

MBS International School organised a Gratitude Card-Making Activity to encourage students to express their appreciation and thankfulness towards the people who make a positive difference in their lives. The activity provided a creative platform for students to convey their heartfelt emotions through beautiful handmade cards adorned with colourful designs, artistic patterns and thoughtful messages.
The students enthusiastically participated in the activity and extended their gratitude through lovely messages filled with warmth, kindness and appreciation. Their cards reflected the values of respect, empathy, compassion and thankfulness. Through this meaningful initiative, students learnt the importance of acknowledging the efforts of others and expressing gratitude for their love, care and support.
The activity was a wonderful blend of creativity and emotional expression, reinforcing the belief that even a small gesture of appreciation can bring happiness and strengthen relationships. It successfully nurtured a culture of gratitude, kindness and positivity among the students.
