Day & Date	**:**	**Wednesday, 28 October 2026**
Class	**:**	**XI**
Teacher In charge	**:**	**Ms Parul Trivedi**
Activity In charge	**:**	**Ms. Parul Trivedi**

A Glimpse of the Event

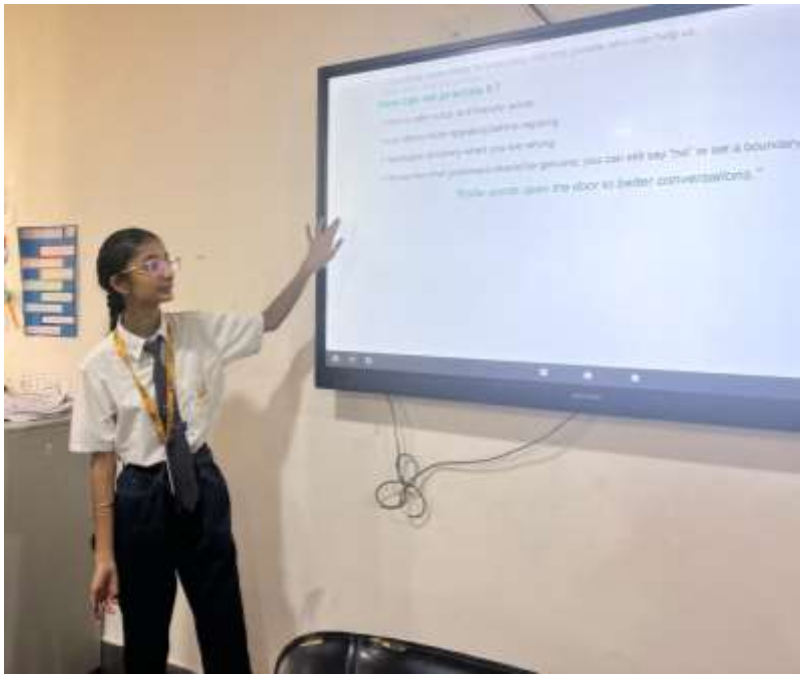

Objectives:

1. **Value Internalization:** Help young children understand and apply core social and personal values in daily life.
2. **Peer Mentorship:** Foster leadership, responsibility, and empathy among senior students.
3. **School Culture Enhancement:** Promote a respectful, clean, and organized learning environment through student-led initiatives.

"Education is the most powerful weapon which you can use to change the world."

In a unique peer-mentoring initiative, senior students have stepped up to tutor young primary school children not just in academics, but in core life values: punctuality, discipline, cleanliness, and leadership.

The initiative was taken by by the Senior Student Leadership Council, paired students from Grades XI with children in Grades VII & VIII The goal was to translate abstract character traits into practical habits through interactive role-playing, stories, and group activities.

The initiative has yielded visible results across the school. Teachers reported a reduction in morning tardiness and noticeable improvements in classroom tidiness following the workshops.

Beyond habit-building, the program strengthened relationships across grade levels, building a friendlier and more supportive school environment while helping senior tutors develop essential communication and patience skills.

School administrators hope to expand the peer-tutoring model into an annual tradition with monthly follow-up activities to sustain these habits year-round.
