### **Report on Students' Workshop: Sustainable Careers in the Era of AI**

On August 2, 2024, The Air Force School, Subroto Park, organized an insightful workshop for students of grades IX and XI titled "Sustainable Careers in the Era of AI." The workshop was conducted by Mr. Vineet Vaidya, a distinguished resource person from Pratham, who is well-versed in the field of AI and its applications across different industries. This workshop was designed to address the growing influence of artificial intelligence (AI) and its impact on future career opportunities.

Mr. Vaidya began the workshop by explaining the transformative impact of AI on technology and daily life. He discussed how AI is revolutionizing various industries and why it is essential for students to grasp its significance. The workshop covered a broad spectrum of career paths related to AI. Mr. Vaidya elaborated on roles in artificial intelligence, data science, and cybersecurity, detailing the skills and qualifications needed for each career. The workshop included practical advice on how students can prepare for careers in AI and related fields. Emphasis was placed on the importance of developing technical skills, pursuing relevant educational opportunities, and staying updated with technological trends.

The workshop successfully equipped students with a deeper understanding of the career opportunities available in the era of AI. By providing insights into various fields and offering guidance on skill development, Mr. Vaidya helped students recognize the potential of AI and inspired them to consider how they can contribute to and benefit from this rapidly evolving technology. The session was both enlightening and motivational, leaving students better prepared to make informed decisions about their future careers in the technology sector.
