

## Visit at INSPIRE MANAK Science Exhibition

On 18th September 2024, the students of Class 10 had the opportunity to visit the INSPIRE MANAK Science Exhibition held at Pragati Maidan, New Delhi. This exhibition, part of the INSPIRE (Innovation in Science Pursuit for Inspired Research) scheme, is organized to promote scientific creativity and innovation among young students. The MANAK (Million Minds Augmenting National Aspiration and Knowledge) initiative specifically aims to tap into the creative potential of students and encourage them to apply scientific concepts to real-life problems.

The exhibition was a valuable learning experience for students. It not only broadened their understanding of real-world scientific applications but also motivated them to think creatively about solving local and global challenges. The visit encouraged them to nurture their curiosity and look at science as a tool for social good.
