

REPORT NO BAG DAY, ON 05 OCTOBER 2024 CLASS VI

No Bag Day is an initiative aimed at promoting a recreative academic environment and encouraging students to explore alternative methods of learning and engagement. The teachers organized interactive sessions, discussions, and group activities related to their respective subjects and also to commemorate the upcoming Air Force Day. These activities included video presentation on use of Maths in Aircrafts, recitation in Sanskrit, English Verbal Activity on how students feel being associated to the Indian Air Force, discussion on their views about River Pollution in Social Science and conversions in Science.

Students engaged in art and craft activities for the class board too. Story telling sessions in Hindi and creative reciting exercises in English to express themselves without the need for traditional academic materials was an add on to their No Bag Day fun. The absence of textbooks prompted students to think outside the box and explore unconventional methods of learning and expression. The "No Bag Day" initiative proved to be a resounding success, achieving its objectives of promoting creativity, and responsibility among the students.
