

# REPORT: 'SOLART' COMPETITION

Date: 12-13 Nov.2024

In its effort to promote solar energy and ensure a clean and green environment, Ministry of New and Renewable Energy conducted an All-India intra-school painting competition- SOLART. The objective behind SOLART is to instill the benefits of Solar Energy amongst students at a very early age, while also fostering creativity and artistic expression.

The students of classes 3-5 took part in this competition and created some wonderful pieces of artwork based on the theme 'Solar Energy powering a sustainable future'. In the process they also gained insight into interesting information about how solar energy can become a great alternative to fossil fuels in the future.
