

## Computer Science Week Activities Report

13 Jan 2025 to 17 Jan 2025

The objective of Computer Science Week was to promote interest and awareness in cyber world among students, and to provide a platform for them to showcase their skills and creativity.

### Activities:

#### **Class VI: Cyber Word Hunt**

A word grid was provided in the class and the students circled the cyber terminology words. Each Cyber terms from the grid was explained during class.

#### **Class VII: 'Be Cyber Smart' Puzzle**

A Crossword search puzzle was given and students completed the task. Each cyber term from the puzzle was explained in the class.

#### **Class VIII: 'Cyber Heroes Game'**

An online game to create awareness to become cyber heroes by making smart choices to stay safe online.

Computer Science Week was a huge success, students participated in the activities with enthusiasm and energy. The activities provided a platform for students to showcase their skills, learn new concepts, and develop important life skills. We look forward to organizing more such events in the future.
