

VISIT TO AMRIT UDYAN, RASHTRAPATI BHAVAN

The students of all the sections of class VIII visited the Amrit Udyan, Rashtrapati Bhavan from 18th February to 22 February 2025 escorted by teachers.

Located in the heart of New Delhi inside Rashtrapati Bhawan, the gardens are a full of vivid blooms and a visual treat. Students were mesmerized to see the East lawn, Central lawn, Long garden, and Circular garden. The gardens are known for several varieties of roses found here along with marigolds, petunias, lilies and bougainvilleas, to name a few.

The students also visited the Rashtrapati Bhavan Sanghralaya present inside the premises of President's Estate. The Museum is a world class institution that presents historic story telling in a unique format. Its concept of an event-based history museum, interweaving contextual stories around original collections, sets it apart from traditional object-based museums in the country.

By and large, it remained a rejuvenating and informative experience where the students got a chance to appreciate and admire nature's wonders as well as learn about our nation's political heritage.
