

*“Real learning comes about when the competitive spirit has ceased”*

Dear Parents,  
Warm greetings

**“The Earth does not belong to Us, We belong to the Earth”**

Orbiting Earth in the spaceship, we can know how beautiful the Earth is. Let's preserve, increase its beauty, and most of all explore it.

At Scholars, we continuously endeavor to enhance our students' awareness of their surroundings and continue creating opportunities for them to learn and grow more through various competitions.

Here, we have organised the **“TERRA QUIZ Competition” for our scholarites of Grade IV-V**. The word “Terra” means “land/territory” which directly correlates to our planet EARTH. The competition will be all about exploring and gaining knowledge about our mother Earth in the process of preparing for the same.

**The Competition will be conducted in two rounds. The details are as follows:**

S. No.	Date	Round	Participants	Venue
1.	21.04.25	Preliminary	All Students	Computer Lab (Online)
2.	24.4.25	Final	Selected Students	Auditorium

**Syllabus to Prepare:**

- # Our Planet Earth- (layers, continents, oceans and landforms)
- # Weather and Climate- (Types of Weather and Seasons)
- # Natural Resources- (Renewable and Non- Renewable Sources of Energy)
- # Types of Soil- (loamy, clayey and sandy soil)
- # Amazing Nature Facts- (tallest mountain, longest river, fastest animals, deepest ocean)

**Kindly encourage your ward to prepare well for the competition. Good Luck!**

Regards

**(PRINCIPAL)**
