

DELHI PUBLIC SCHOOL, DWARKA

Dear Parents,

It has come to our notice that certain misleading messages and reports concerning DPS Dwarka are being circulated through various channels. These claims are factually incorrect and misrepresent the values and functioning of the school.

DPS Dwarka has always stood for academic excellence, integrity, and the holistic development of every child. With a proud legacy of nurturing generations of learners, the school continues to uphold the highest standards in education, guided by a deep sense of purpose and responsibility.

The revision in school fees is well-founded and aligned with the periodic revisions mandated by the VII Central Pay Commission, the rising impact of labour-oriented costs, government tariffs, and other statutory compliances. Certain matters relating to fees, as all of us are aware, remain to be decided upon by the Hon'ble High Court of Delhi. The school has duly complied with all directions issued by the Hon'ble High Court and will continue to do so. Any information being disseminated in the public domain against the school in this regard is false and frivolous. You are therefore kindly requested not to be influenced by any misinformation campaign.

Your continued trust and support mean a great deal to us, and we remain steadfast in our commitment to providing a safe, respectful, and enriching learning environment for your children.

Best regards,

Principal
Delhi Public School, Dwarka
