✦ Sample (5–6 lines) – on Mobile Phone

“Good morning everyone, today I am going to talk about a very useful gadget – the Mobile Phone.

A mobile phone helps us to talk to people who are far away.

It is also used for sending messages, listening to music, and even studying online.

With the help of a mobile, we can also take pictures and videos.

It is a very important gadget, but we should use it wisely and not for too long.

Thank you!”
