INVESTITURE CEREMONY SPECIAL EDITION

Honouring Responsibility, Celebrating Leadership

The Sovereign School radiated immense pride as it celebrated its Investiture Ceremony 2025–26 — a momentous occasion dedicated to recognizing leadership, responsibility, and the spirit of service.

The event was graced by the esteemed Guest of Honour from the Delhi Police, who is also a proud parent of the school. The presence of parents added warmth and encouragement, making the day even more memorable.

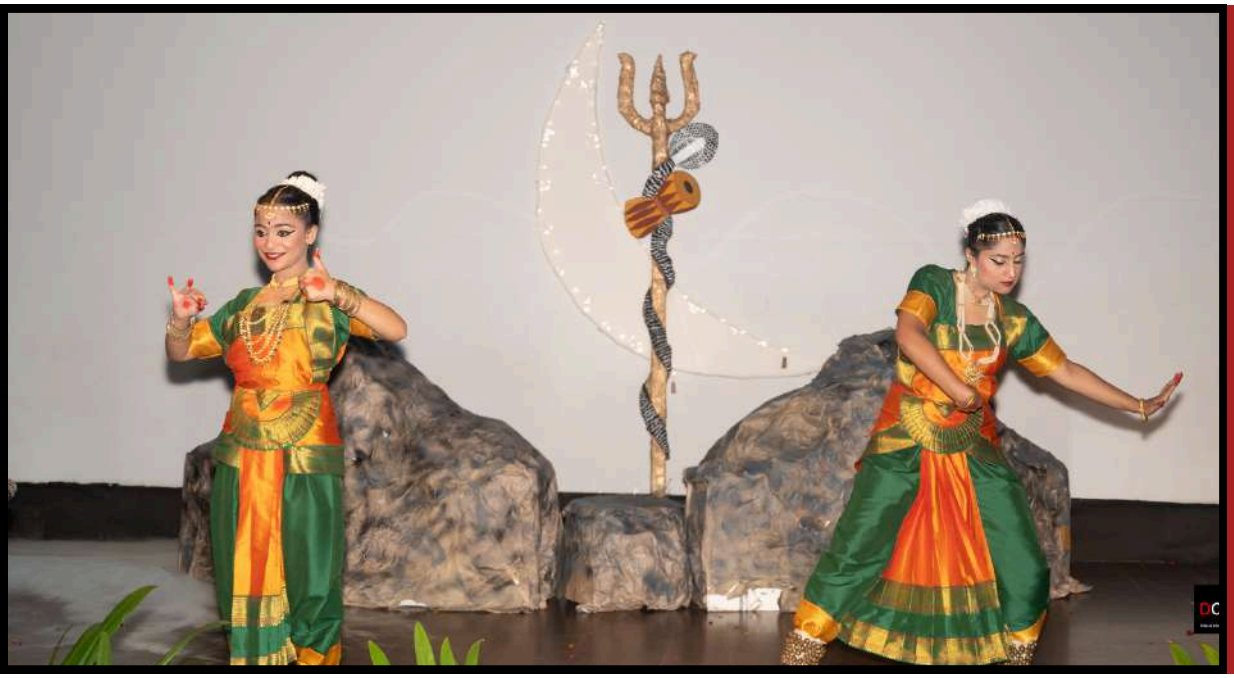

Badges gleamed, hearts swelled with pride, and the newly elected student council took their solemn oath to lead with honesty and empathy. The Principal's motivating words reminded them that leadership is not about authority but about responsibility and example. The ceremony concluded with the school anthem, echoing with the spirit of unity and excellence

NEW BEGINNINGS, BIG RESPONSIBILITIES

The ceremony began with a vibrant cultural programme that filled the atmosphere with colour, joy, and celebration. Our talented students presented soulful songs, graceful dance performances, and an engaging skit that beautifully highlighted the values of teamwork and leadership. Each performance reflected their confidence, creativity, and dedication, setting a perfect and inspiring tone for the prestigious event.

A PROUD MOMENT AT THE SOVEREIGN SCHOOL AS OUR YOUNG LEADERS TAKE ON NEW RESPONSIBILITIES WITH CONFIDENCE AND JOY.

INVESTITURE CEREMONY SPECIAL EDITION

As part of the Investiture Ceremony, interviews were conducted to select the new student council members. The activity aimed to identify responsible, confident, and dedicated students capable of taking on leadership roles within the school.

The interview panel comprised esteemed parents holding high positions in their respective professions, who graciously volunteered their time to evaluate the candidates.

Students were assessed on qualities such as communication, teamwork, problem-solving, and commitment to school values. It was a wonderful opportunity for them to express their vision, confidence, and readiness to lead their peers with integrity and enthusiasm.

JUICY FRUITS

The children of GradeLaurel enthusiastically participated in the fun and healthy “Juicy Fruits” activity. They learned about different citrus fruits like oranges and lemons and explored their texture, smell, and taste. Fresh fruit pieces were provided, and the kids took turns squeezing juice into glasses with great excitement. This hands-on experience helped improve their motor skills and hand strength while also sparking curiosity about how juice is made. They enjoyed watching the fresh juice collect in the glass and felt proud of their efforts. In the end, everyone happily tasted the refreshing juice they had prepared themselves, making the activity both enjoyable and educational.

BEAD COUNTING FUN

Our young learners enjoyed a hands-on bead activity where they used colourful beads and strings, like a mini abacus, to count, sort, and create simple patterns. Through this engaging exercise, they strengthened their fine motor skills, hand-eye coordination, and early math concepts such as counting and colour recognition. Sliding the beads along the frames, the children practised number recognition, formed patterns, and developed concentration and coordination. It was delightful to see their creativity and curiosity flourish as they explored mathematics in a fun and interactive way.

HOLIDAY MEMORIES SHOW & TELL

Grade I students happily took part in a lovely Holiday Memory Show & Tell activity. Each child brought a picture or an object from their holidays and shared a few simple lines about how they spent their vacation. They confidently talked about their exciting trips, fun family time, and new experiences. The activity helped them improve their speaking skills, build confidence, and learn to listen and appreciate their friends' memories. It was a joyful experience to see their happy faces as they relived their wonderful holiday moments in class.

SUMMER SPLASH

The school playground transformed into a lively water wonderland as our young learners participated in the Summer Splash Activity. The children giggled and played with water toys, sprinklers, and buckets, building confidence, hand-eye coordination, and cooperative skills in a safe and supervised environment. The joy and excitement were truly contagious!

ACCOUNTS ACTIVITY- SOURCE DOCUMENTS

The Grade XI Commerce students explored different types of source vouchers in their recent lessons. They learned how to identify and name various vouchers and gained practical knowledge about completing important financial documents, including pay-in slips, cheques, and invoices. This activity helped students develop a clear understanding of everyday business transactions and the proper procedures for maintaining financial records

FLIP CLASSROOM SETTING

THE FLIP EFFECT

The Flipped Classroom is a modern teaching strategy that transforms the learning experience by shifting the initial instruction from the classroom to the home. In this innovative approach, students took charge of their learning and explored topics independently before coming to class. Students actively participated in a group PPT presentation activity conducted in a flip classroom setting. Working collaboratively, they researched their assigned topics and created engaging presentations. Through this process, the children not only enhanced their subject knowledge but also developed effective communication, teamwork, and research skills. The activity boosted their confidence in public speaking and showcased their ability to collaborate and present ideas clearly, making learning both interactive and enjoyable.

UNITY IN DIVERSITY

The students of Class VI showcased the different states of India. It helped them understand that despite of diversity, how people live together harmoniously in our country.

**DIFFERENT WE STAND,
UNITED WE SHINE!"**

This activity helped them to explore the states and their costumes, food, capitals, language spoken, dresses worn.
The activity was integrated with science chapter- Nutrition
The students participated enthusiastically participated in the activity all dressed up according to the dresses worn in different parts of india.
States covered-
North- Kashmir, Punjab and Haryana
West- Rajasthan and Gujarat
East- Nagaland And West Bengal
South- Tamil Nadu

MICROORGANISMS AROUND US

Students of Grade VIII dived into the microscopic world with great curiosity during a hands-on activity on microorganisms. They observed permanent slides of Amoeba, Paramecium, and Euglena under microscopes, noticing their unique shapes and movements. The class also examined a sample of bread mould to identify living microorganisms, making the tiny world come alive before their eyes. This engaging activity not only enhanced their observational skills but also sparked excitement and a deeper understanding of the unseen life around us.

DEMOCRACY IN ACTION

Students experienced the democratic process firsthand through the election of their Class Monitor. They nominated themselves, campaigned enthusiastically, and cast votes using a secret ballot. Kunal was elected as the new Class Monitor, receiving 17 votes. The activity provided valuable lessons in leadership, civic engagement, and teamwork, while also encouraging critical thinking and responsibility. It was a successful and engaging way for students to understand the importance of democracy in action.

DRAFTING A CLASS CONSTITUTION PREAMBLE

Students explored the significance of a preamble and the ideals of our Constitution by creating their own class preamble. Drawing inspiration from the Indian Constitution, they incorporated values such as equality, justice, and respect while drafting a collective statement for their classroom. The activity encouraged them to think deeply about important principles and express their ideas collaboratively. It also fostered a sense of responsibility, unity, and respect for one another, as they worked together to create a shared vision that reflects their class values and principles.

The final preamble beautifully captured the spirit and aspirations of the students, making the learning experience both meaningful and memorable.

EXPLORING FRENCH HERITAGE ON BASTILLE DAY

A special classroom activity was conducted on 14th July to commemorate Bastille Day, the National Day of France. Students from Grades 6 to 8 enthusiastically participated in an engaging worksheet-based session aimed at deepening their understanding of French culture and history.

The activity highlighted the significance of Bastille Day, key French symbols, and basic vocabulary related to the celebration. Students enjoyed completing themed worksheets featuring comprehension passages, matching exercises, and creative tasks.

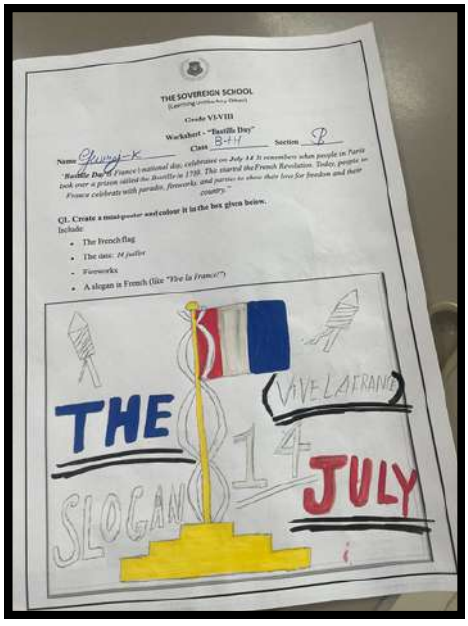

The session not only promoted cultural awareness but also helped learners connect with the global importance of French heritage. It was an enriching and interactive learning experience that left students inspired and informed.

THE MAGIC OF LIGHT: PRISM REFRACTION EXPERIMENT

Students of Class X conducted a Physics practical to explore the refraction of light through a glass prism. By tracing the path of a light ray passing through the prism, they observed how light bends and deviates from its original direction. They carefully measured and marked the angle of deviation and the angle of emergence to understand the change in the ray's direction more accurately. This hands-on experimentation enhanced their conceptual understanding of refraction, encouraged scientific observation, and made learning more engaging through real-time experience.

BACK TO THE STONE AGE: CREATING FIRE WITH STONES

Our Grade 6 learners embarked on an exciting hands-on exploration of prehistoric life through the “Sparks of Discovery” activity. Students experienced firsthand the remarkable ingenuity of early humans and the evolution of survival skills.

Under close supervision, they attempted to create fire using stones, gaining insight into the patience, precision, and technique required to ignite a spark using flint and tinder. This engaging experience allowed students to appreciate the significance of fire-making as a vital milestone in human history.

ROCKSPORT CAMP

The school premises buzzed with excitement as students of Grade I to V participated in the Rocksport Adventure Camp. The day was filled with thrilling activities, team games, and adventure challenges designed to promote confidence, courage, and collaboration. Under expert supervision, children explored new experiences, overcame obstacles, and discovered the joy of teamwork in a safe and cheerful environment. It was truly a day of learning through fun and adventure!

LEARNING BY DOING – HANDPICKING AND SIEVING ACTIVITY

Students of Grade 6 participated in a hands-on science activity to understand the concept of separating mixtures using simple methods like handpicking and sieving.

Through this engaging experiment, they learned how different materials can be separated based on size and physical properties. The activity helped students connect scientific concepts to real-life applications such as separating grains, pulses, or sand and stones. It was a fun and interactive way to explore the importance of separation techniques in everyday life.

PHOTOGRAPHY CLUB MONTHLY WORKSHOP

The Photography Club, in collaboration with the Delhi College of Photography, conducts enriching monthly workshops where professional photographers visit our campus with advanced equipment and expertise. These hands-on sessions introduce students to essential photography techniques, including lighting, camera handling, composition, and emerging technological trends in the field.
In the July session, selected students from Classes IX to XII enthusiastically participated and gained valuable skills, refining their creative eye and technical know-how behind the lens.

CAREER HORIZONS IN SPORTS

Our school organised an engaging "**Sports as a Career**" workshop, aimed at broadening students' understanding of the growing professional avenues in the field of sports. The session covered diverse roles including professional athletes, coaches, sports nutritionists, physiotherapists, sports managers, analysts, and journalists. Students gained valuable insights into the qualifications, skill sets, and dedication required to excel in the sports industry. The workshop inspired learners to pursue their passion for sports with confidence and vision.

TURNING PASSION INTO PROFESSION
