SHAPING THE **EXECUTIVE BOARD**

The selection of the Deputy Secretary-General and Executive Board members at TSS MUN 2025 was a rigorous and structured process that spanned over three days. To ensure fairness and professionalism, a specialized MUN expert team from Aspirant Learning was invited to assess the potential of the nominated candidates. Each candidate underwent a series of challenging interviews that tested not only their diplomatic skills, problem-solving abilities, and presence of mind but also their vision for leadership and ability to handle high-pressure scenarios.

The experts conducted in-depth evaluations, offering valuable insights into the candidates' strengths and areas of growth. The process demanded a balance of confidence, clarity, negotiation skills, and teamwork, all of which were displayed impressively by the aspirants. Those selected demonstrated the qualities of leaders who could inspire trust, maintain composure, and guide delegates with integrity and professionalism.

PRACTICE BEFORE THE **MAIN EVENT**

To build confidence, a Mock MUN was conducted where delegates rehearsed committee procedures and debates. They practised speeches, drafting resolutions, and collaborating in informal caucuses. The rehearsal gave them a safe space to learn and correct mistakes. It also boosted participation from quieter delegates, helping everyone prepare equally. The Mock MUN proved essential in transforming theory into confident performance.
