**MATHS**

A) \*Activity 1: Distance & Measurement\*

The distance between Port Blair and Havelock Island is about 70 km.

- 1) If a boat travels 35 km in the morning, how much distance is left?
- 2.) If a ship travels 10 km per hour, how many hours will it take to travel 70 km?

### B) \*Activity 2: Population & Numbers\* ☐☐

- 1) The approximate population of Andaman & Nicobar Islands is 4,00,000.
2. Write the population in words.
3. Find the place value of 4 in 4,00,000.
4. If 1,25,000 people live in Port Blair, how many live in other areas?

### \*Activity 3: Shapes & Geometry\* ☐☐☐

Boats look like triangles

Hotel windows are rectangles

Coins used by tourists are circles

1. Draw and name 3 shapes seen in Andaman & Nicobar.

2. Write one real-life example of each shape.

☐ Do these work on A4 size sheets.

☐ Do your work creatively using pictures , stickers , thread/wool , etc.

## **SOCIAL SCIENCE**

### Activity -

**Island vs. Mainland:** Create a large map showing the difference between Delhi (mainland, historical city) and Andaman & Nicobar (cluster of volcanic islands, rich marine environment). ( Roll no. - 1 to 20 )

**Protect Our Islands:** Design posters or a small diorama about protecting the beaches and coral reefs of A&N Islands, linking it to keeping Delhi clean (plastic pollution). ( Roll no. - 21 to 40 )

## **SCIENCE**

1. Revise UT-3 Syllabus.
2. Make a poster /drawing (chart paper) showing the marine life (corals, fish) of the Andaman and Nicobar islands versus Delhi's water bodies (Yamuna River, lakes), explaining the importance of clean water in both places.
3. Observation of Migratory birds-Visit a zoo. Take pictures and make a collage.

## **FRENCH**

### 1) MA NORRITURE PRÉFÉRÉE

On an A-4 size coloured sheet, draw/paste pictures of five of your favourite food items with their names in french.

Refer leçon 8: une sortie entre amis

## **DRAWING**

Make any one craft on the topic Lohri Celebration

## **COMPUTER**

Revise final term syllabus all the work done in notebook and book.
