Class-III

GREEN AND HEALTHY

ENVIRONMENT

GRADE-III

A clean and green environment helps us live a happy and healthy life. Trees, plants, fresh air, and clean surroundings make our world beautiful and safe for everyone. It is important for all of us to take small steps to protect and care for our environment.

This summer, let's learn to keep our surroundings clean, save water, and grow more plants. Spend time in nature, help your family in simple tasks, and make good habits that keep you and your environment healthy.

HAPPY HOLIDAYS!

(PRINCIPAL)

Dear Parents,

The summer break is here—a wonderful opportunity for our young learners to relax, explore, and grow beyond their daily routines.

As we look ahead towards building a sustainable future, it is important to guide our children in developing habits that are thoughtful, responsible, and environmentally friendly. This vacation can be both enjoyable and meaningful when children are engaged in simple, purposeful activities that nurture awareness and care for the world around them.

Encourage them to:

- Read books related to nature and the environment
- Practice eco-friendly habits like:
 - Saving water and electricity
 - Reusing and recycling materials at home
 - Keeping their surroundings clean
 - Helping in small household chores
 - Planting and caring for trees or plants
 - Spend quality time with family and learn through real-life experiences

These small efforts will help children develop responsibility, empathy, and respect for nature. Let us work together to inspire them to become mindful individuals who contribute positively to society.

Wishing you and your family a joyful, productive, and eco-friendly holiday!

ENGLISH

Complete the following activities neatly and creatively in an English on A4 sheets.
Use colours, drawings, and your imagination!

Activity 1 – Nature Vocabulary Tree

Draw a big tree and write:

- *  10 words related to nature (example: tree, river, flower)
- *  One describing word (adjective) for each

Example:

Flower – beautiful 

Activity 2 – Save Earth Poster

Make a colourful poster on the topic:

“Keep Our Environment Clean and Green”

You may add: Slogans, Drawings, Short messages

OR

Activity 3 – Healthy Habits Chart

Prepare a chart showing 5 healthy habits for a healthy environment and healthy life.

Example:

- * Drink clean water 
- * Eat healthy food 

Presentation and Creativity	Observation skills	Sentence Writing	Completion & Regularity
2 marks	1 mark	1 mark	1 mark

HINDI

प्रश्न- 1 अपने पसंदीदा पौधों के नाम लिखिए जिन्हें आप अपने घर पर लगाना पसंद करेंगे। आप इन पौधों का ध्यान किस प्रकार रखेंगे यह बताते हुए 4-5 वाक्य लिखिए।

प्रश्न- 2 'जल ही जीवन है' यह समझते हुए जल को बचाने के लिए आप क्या - क्या करते हैं? 4-5 वाक्यों में लिखिए। चित्र भी बनाइए।

अथवा

नीम को औषधीय वृक्ष कहा जाता है। नीम का वृक्ष हमारे लिए किस प्रकार लाभदायक है 4-5 वाक्यों में लिखिए तथा चित्र भी बनाइए।

प्रश्न- 3 इ, ई, उ, ऊ इन स्वरों की मात्राओं से बनने वाले 10-10 शब्द सुंदरतापूर्वक लिखिए।

अथवा

हिंदी वर्णमाला लिखिए तथा याद कीजिए। ए, ऐ स्वरों की मात्राओं से बनने वाले 10-10 शब्द भी लिखिए।

नोट:- प्रश्न- 1,2,3 A-4 शीट पर कीजिए।

MATHS

Plants are very important for our life. They give us fresh air, food, and make our surroundings beautiful. In this project will help you understand how we can make our world more green and healthy. Become a Young Eco-Researcher and explore how green your surroundings are!

Draw a Pictograph:

The table given below shows the number of plants grown by 5 friends. Represent the data in the form of a pictograph on A3 sheet using the table. Where 🌿 = 1 plant (Example: If someone has 4 plants → 🌿 🌿 🌿 🌿)

Decorate your A3 sheet with drawings of trees, leaves, and flowers 🌸

Use green colors to make your project attractive.

Name	No. of Plants
Riya	5
Meera	8
Niket	4
Mohan	10
Rudra	6

Think & Answer the following Questions on the same sheet.

Q1. Who has the maximum number of plants?

Q2. Who has the minimum number of plants?

Q3. How many plants are there in total?

Q4. Why are plants important for a healthy world?

OR

“My Green and Healthy World” Project-2 – Waste Collection Activity

Waste management is very important to keep our surroundings clean and healthy. In this activity, you will become a Waste Observer and study the types of waste collected at home.

Step 1: Observe and Collect Data

For 5 days, observe the waste produced at your home. Separate the waste into two categories:

1. **Plastic Waste** (bottles, wrappers, bags, etc.)
2. **Paper Waste** (newspapers, cartons, notebooks, etc.) Count the number of items in each category every day.

Step 2: Record Your Data in a Table

Day	Plastic Waste (Number of items)	Paper Waste (Number of items)
Day 1		
Day 2		
Day 3		
Day 4		
Day 5		

Write neatly and count carefully.

Step 3: Represent Data (Bar Graph Model). Refer to the image for model ideas.

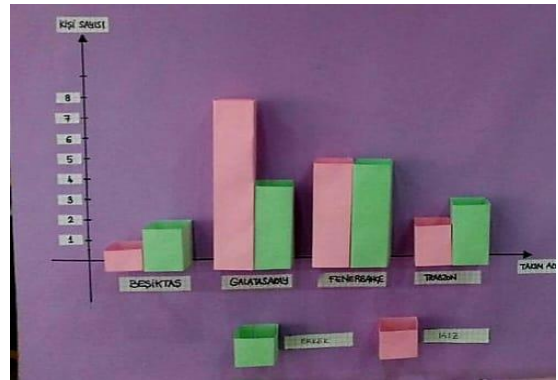

- Draw two bars for each day:
 - One for plastic waste

- One for paper waste .
- Label properly:
- X-axis → Days
- Y-axis → Number of items

Step 4: Compare and Analyse

Answer the following questions on A3 sheet :

1. Which type of waste is **more overall** – plastic or paper?
2. On which day was the **maximum waste collected**?
3. On which day was the **minimum waste collected**?
4. How many total plastic items were collected in 5 days?
5. How many total paper items were collected in 5 days?
6. What difference do you see between plastic and paper waste?

Step 6: Presentation

Make your project attractive:

- Title: “**My Waste Collection Report**”
- Use colours (green, blue)
- Draw recycling symbols
- Decorate with eco-friendly drawings

EVS

1. My Healthy Me Chart

Make a weekly chart:

What you ate

Water intake

Physical activity (play, yoga, walking)

Add a reflection: “Did I eat healthy?”

What will I improve?”

My Healthy Me - Weekly Tracker

Day: _____

Food I Ate: _____

Glasses of Water: _____

Activity Done: _____

Was I Healthy Today? YES / NO

2. Do worksheet
