Summer Holiday Homework

NAME:

Class-IV

SAVE EARTH MISSION

GRADE-IV

Our Earth is our home, and it is our responsibility to take care of it. Every small action we take can make a big difference in keeping our planet clean, green, and healthy. This summer, let's become Earth heroes by protecting nature and making smart choices in our daily lives.

Use your holidays to learn simple ways to save the Earth—plant trees, avoid wasting water, reduce plastic use, and keep your surroundings clean. Together, we can make our planet a better place for ourselves and for future generations.

HAPPY HOLIDAYS!

(PRINCIPAL)

Dear Parents,

The summer break is here—a wonderful opportunity for our young learners to relax, explore, and grow beyond their daily routines.

As we look ahead towards building a sustainable future, it is important to guide our children in developing habits that are thoughtful, responsible, and environmentally friendly. This vacation can be both enjoyable and meaningful when children are engaged in simple, purposeful activities that nurture awareness and care for the world around them.

Encourage them to:

- Read books related to nature and the environment
- Practice eco-friendly habits like:
 - Saving water and electricity
 - Reusing and recycling materials at home
 - Keeping their surroundings clean
 - Helping in small household chores
 - Planting and caring for trees or plants
 - Spend quality time with family and learn through real-life experiences

These small efforts will help children develop responsibility, empathy, and respect for nature. Let us work together to inspire them to become mindful individuals who contribute positively to society.

Wishing you and your family a joyful, productive, and eco-friendly holiday!
