Report on Class Assembly: Role of AI in Education

Date: 22 October, 2024
Organizer: Class 11-S1

Class Teacher: Madhurima Sinha

The morning assembly held today was organized by Class 11-S1 on the insightful and timely topic of **"The Role of Artificial Intelligence (AI) in Education."** The event began at 8:00 AM with the school prayer.

Shreya Bhardwaj and Anvi Atri, the comperer, kick-started the assembly with a brief overview of AI. They explained that Artificial Intelligence refers to the simulation of human intelligence by machines, especially computer systems.

The thought for the day was presented by Runzun Vij, who quoted the positive and negative aspects of the use of AI.

An article was presented by Komal Jha and Disha Pachauri. They elaborated on AI-based tools, such as smart content creation, automated grading systems, and personalized learning platforms. They also mentioned AI's role in special education, where it helps students with disabilities through speech recognition and customized learning aids.

The word of the day was presented by Ayushman Ray, which was *"Augmentation".*

The highlight of the assembly was a speech delivered by S M Afnan. He introduced the significance of AI in modern-day learning and its potential to revolutionize education.

A short skit was performed by the students of Class 11-S1 (Aditya Sutar, Dakshita Hira, S M Afnan, Shashwat Kashyap, Tanishka Tyagi and Yashika Goswami) demonstrating how AI is already being integrated into classrooms. The message was clear: *"AI is not here to replace teachers but to assist them in creating a better learning environment. It can make learning more fun, personalized, and adaptive to each student's needs."*

Tejas Raghav and Daisy Nagpal took everyone around the globe with international, national, sports, school and weather news.

The Principal, **Mr. Akhilesh Chaturvedi,** appreciated the efforts of Class 11-S1 in organizing such an informative assembly. He praised the students for their performance and encouraged everyone to be open to technological advancements, such as AI, that could enhance both teaching and learning experiences. He remarked, *"AI will not replace teachers, but teachers who use AI will replace those who do not."* His message was well-received by both students and faculty.

The assembly concluded with the national anthem, leaving everyone with a better understanding of how AI is poised to play a vital role in shaping the future of education. The students and teachers alike expressed their excitement about the potential of AI to make learning more interactive, personalized, and effective.
