

## **Board Exams: Gateway to Success**

### **Principal's Address to Class X Students**

With the board exams approaching, Mr. Akhilesh Chandra Chaturvedi, Principal, DPS Maruti Kunj, addressed the students of Class X, offering motivation, practical strategies and essential guidance to help them perform their best.

He began by acknowledging their hard work and dedication, reassuring them that they were well-prepared for this important milestone. While a certain level of stress is natural, he emphasized that confidence, focus and trust in their preparation would pave the way for success. He applauded their perseverance and encouraged them to step forward with self-belief.

During his address, he shared key examination strategies, urging students to read the question paper carefully, manage their time wisely, present their answers neatly and use revision notes effectively. He reminded them that their teachers are always available for guidance and encouraged them to seek support whenever needed, both online and offline.

Recognizing the role of parental support, he advised parents to strike a balance—neither being too strict nor overly lenient. Instead, they should provide encouragement, guidance and a stress-free environment, allowing students to focus without undue pressure.

He also reinforced important exam-day instructions, reminding students to carefully read their admit cards, report to the exam center well in advance in proper school uniform with an ID card to avoid any inconvenience.

Acknowledging that every student learns differently, he spoke about various learning styles, encouraging students to adopt revision techniques that suited them best, whether visual, auditory or kinesthetic. He also cautioned against ego and overconfidence, emphasizing that true success comes from consistent effort and thorough preparation.

The session concluded on an uplifting note, leaving students reassured, motivated and ready to approach their exams with clarity, composure and confidence.
