

Class Assembly Report:

The students of Class VI-B of Delhi Public School, Maruti kunj presented an exclusive assembly on International Day of Women and Girls in Science, on February 14th,2025. The assembly was a special event that highlighted the importance of fostering a more inclusive and diverse scientific community.

The assembly began with an informative introduction delivered by students, who explained the significance of this day. They shared insights about the challenges women and girls face in pursuing careers in science, technology, engineering, and mathematics (STEM) fields. Later, the students emphasized the need to inspire and encourage girls to pursue their passions in these areas, where they have historically been underrepresented.

Following the speech, a series of short presentations were made by students, highlighting the achievements of notable women in science. These included stories of pioneering scientists such as Tessy Thomas, Sudha Bhattacharya etc. who have made extraordinary contributions to science and technology.

The event concluded with the motivational words shared by the Principal on the importance of gender equality in scientific fields. His speech encouraged everyone to reflect on how they can contribute to creating a more supportive environment for women and girls in science. He also reinforced the message that science belongs to everyone, regardless of gender, and that women and girls have an important role to play in shaping the future of science and technology.
