## Report on Career Counselling Session by UPES Dehradun

Date: 7 April

Organized by: UPES Dehradun

### **Topic: Emerging Technologies and Liberal Arts**

A career counselling session was conducted on 7 April by UPES Dehradun for senior students. The session was led by Prof. Solanki and focused on emerging career trends.

#### **Objectives**

To familiarize students with emerging technologies

To highlight the importance of liberal arts education

To encourage interdisciplinary career choices

#### **Details of the Session**

Prof. Solanki discussed the growing importance of emerging technologies such as Artificial Intelligence, Data Science, and Digital Innovation. He explained how these fields are shaping the future job market and emphasized the need to develop relevant skills.

The session also highlighted the value of liberal arts in enhancing critical thinking, creativity, and problemsolving abilities. Students were encouraged to explore diverse and interdisciplinary career paths that combine technology with humanities and social sciences.

#### **Conclusion**

The session was insightful and engaging. It broadened students' understanding of modern career opportunities and inspired them to prepare for future challenges with confidence.
