

Assembly Report

A special morning assembly on the theme “**Disaster Management – Preparedness for a Safer Tomorrow**” was conducted on Thursday, 30/07/2026 by the students of **Class IX A** with the objective of creating awareness among students about disaster preparedness, emergency response, and safety measures.

The assembly commenced with the ‘Prayer’ by the Principal, followed by a melodious choir presentation, which created a calm and positive atmosphere. The proceedings were conducted confidently by the comperes Kanchan and Atiksh, who introduced the theme and highlighted the importance of preparedness and responsible action during emergencies. The assembly included an inspiring ‘Thought of the Day’, an informative article on disaster management, and a meaningful poem on preparedness and resilience, all of which emphasized awareness, courage, and collective responsibility.

A special Safety Awareness Segment was presented by Saanvi and Yogita, who explained important safety guidelines and the do’s and don’ts to be followed during fire and earthquake emergencies. They also demonstrated the internationally recommended “**Drop, Cover, and Hold On**” technique for earthquake safety and reinforced the importance of “**Stop, Drop, and Roll**” during fire emergencies. Their presentation was informative and engaging, helping students understand practical life-saving measures. The assembly continued with the ‘Disaster Preparedness Pledge’, in which all students and teachers participated, reaffirming their commitment to staying aware, alert, and prepared during emergencies. The news segment followed, keeping everyone informed about important national and international developments.

The assembly concluded with an inspiring address by the Principal, who appreciated the efforts of the children of Class IX A and emphasized that disaster preparedness is an essential life skill. The program ended with the National Anthem.

The assembly was well-organized, informative, and impactful, successfully spreading the message that preparedness, awareness, and presence of mind are the keys to building a safer and more resilient tomorrow.
